5. [] Talked with Bill Woodruff, Senate Appropriations Committee staff, about Senator Fulbright's amendment No. 814 to the Military Procurement Authorization bill (H. R. 17123). This requires Federal departments or agencies, upon request by certain congressional committees, to transmit copies of studies or reports financed with Federal funds and conducted by persons outside the Federal Government. Woodruff suggested that we contact Don Brazier, Principal Deputy Assistant Secretary (Comptroller), Department of Defense, with the suggestion that he include in his "reclaimer list" on this bill a request that the words "within the jurisdiction of said committee" be inserted. Woodruff will discuss this with Russ Blandford and ask that he accept this DOD proposal when the authorization bill goes to conference. Woodruff added that a previous effort by Fulbright to this effect had been handled this way by Senator Russell three or four years ago.
